

February 20, 2013

I had the pleasure of meeting Shayan during the summer of 2011. Shortly thereafter he began working with my 9 year old Quarter horse Dish whom I had recently purchased. Dish has always had a wonderful easy going personality but prior to being trained by Shayan he was out of balance and very unresponsive to the rider. It was a lengthy process but ultimately Dish became a responsive and balanced horse.

I also had Shayan tune up another horse named Moe. Moe came to me after his owner was bucked off and hurt. I was apprehensive about the horse because of his past so I had Shayan ride and evaluate Moe. Again this was a very positive experience and Moe has become a wonderful horse.

In addition to Shayan working with my two horses I took riding lessons from him. I feel much more confident in my riding abilities and gained a tremendous amount of knowledge.

I wholeheartedly recommend Shayan to anyone looking to either improve his or her riding abilities or need a horse trained.

A handwritten signature in cursive script that reads "Christy Lindley". The signature is fluid and elegant, with a long, sweeping tail on the letter "y".

Christy Lindley
